

# ENTREPRENEURIAL ECOSYSTEM DEVELOPMENT

## Knowledge Development

### Dept of Micro- and Nanosystem Technology

- Leading education and research on MNT in Norway
- National PhD Network
- Erasmus Mundus Master on SSI
- Industry collaboration on R&D&I
- SFI on ultrasound innovation
- World-class education and research with collaboration with Berkeley Sensor & Actuator Center (BSAC)

## Infrastructure

### Vestfold Innovation Park

- Laboratories & Cleanroom
- Joint facilities for piloting & testing
- Simulator centre
- International clusters & arenas
- COMS, MANCEF, EPOSS, ECSEL
- Incubator, cluster partners, service providers
- Offices and test facilities in Hong Kong Science & Technology Park
- Equipment Fund

## Innovation

### Collaboration and commercialisation

- Silicia Vestfold Technology Incubator
- Innovation projects funding
- 22 industry driven collaboration projects
- 17 active cluster teams
- Investor network & Venture Capital partners
- Commercialization partners
